📍 1234 Abc Street, Boston, MA 02215

Education

University of Charles River	Boston, MA
M.S. in Computer Science	09/2021 - 01/2023
Huangdu Institute of Technology	Shanghai, China
B.Eng. in Software Engineering	09/2016 - 07/2020

Publications

- P1 **Eating is All You Need**
Haha Ha, San Zhang
Conference on Neural Information Processing Systems (NeurIPS), 2019
- P2 **You Only Cook Once: Unified, Real-Time Mapo Tofu Recipe**
Haha Ha, San Zhang, Si Li, Wu Wang
Computer Vision and Pattern Recognition Conference (CVPR), 2017 (Best Paper Honorable Mention)

Experience

**I do stuff	Slow Feet Technology	07/2021 - Present
<ul style="list-style-type: none">Devised a new food-agnostic formulation for fine-grained cross-ingredient meal cooking and subsumed the recent popular works into the proposed schemeProposed a cream of mushroom soup recipe which is competitive when compared with the SOTA recipes with complex steps by only altering the way of cutting mushroom, published in NeurIPS 2019 (see P1)Developed a pan for meal cooking which is benefiting the group members' research work		
Research Intern	Paddling University	08/2020 - Present
<ul style="list-style-type: none">Designed an efficient method for mapo tofu quality estimation via thermometerProposed a fast stir frying algorithm for tofu cooking problems, which specifies the amount of the hot sauce instead of using terms like "as much as you can", published in CVPR 2017 (see P2)Outperformed SOTA methods while cooking much more efficient in experiments on popular tofu		
Research Assistant	Huangdu Institute of Technology	03/2020 - 06/2020
<ul style="list-style-type: none">Proposed a novel framework consisting of a spoon and a pair of chopsticks for eating mapo toufuDesigned a tofu filtering strategy inspired by beans grinding method for building a dataset for this new taskDesigned two new evaluation criteria to assess the novelty and diversity of the eating plansOutperformed baselines and existed methods substantially in terms of diversity, novelty and coherence		
Research Intern	Paddling University	07/2018 - 08/2018
<ul style="list-style-type: none">Designed two sandwiches consisting of breads and meat of two traditional bacon cheese burgers to make use of unused ingredientsUtilized the structure duality to boost the cooking speed of two dual tasks based on shared ingredientsOutperformed strong baselines on QWE'15 and ASDF'14 dataset		

Awards and Honors

Gold , International Collegiate Catching Fish Contest (ICCF)	2018
First Prize , China National Scholarship for Outstanding Dragons	2017, 2018

Skills

Programming Languages: 🐍 Python, 📄 JavaScript / 📄 TypeScript, 📄 HTML / 📄 CSS, ☕ Java
Tools and Frameworks: Git, PyTorch, Keras, scikit-learn, Linux, Vue, React, Django, ~~LaTeX~~
Languages: Chinese (native), English (proficient)
